Non Union Pennsylvania Coal Miners Defeat Teamsters With Guns.

PITTSBURGH, Dec. 18.—A special from Uniontown tells of a fight between the coke strikers and the non-union men.

The fight occurred near the Valley works. The union men have driven their opponents from the public places repeatedly, and they decided to retaliate. The non-union men armed themselves with revolvers and congregated at the store, half of their force being placed out of sight. When the strikers appeared they made threats against the men and attempted to drive them away and a fight ensued. The men in hiding appeared on the scene and the strikers finding themselves outnumbered started to run.

At least 200 shots were fired, and it is known that one man a striker was shot in the leg and his injury may prove fatal. He became exhausted from the loss of blood and his friends carried him into Boyd's Bar, two miles from where the fight started and from there he was taken to his home, after the battle. It is said that a number of others were more or less injured, but how many is not known.

Judge Grosscup Says He Was Discharging His Duty When He Shot.

CHICAGO, Dec. 18.—Judge Grosscup has made an order that Wm. J. Stark, one of the deputy marshals arrested during the strike for killing, be discharged, as the prisoner was in custody for an act done in pursuance of a law of the United States, and therefore was held in violation of the constitution and laws of the United States. The judge also decided that his sureties be released and discharged from all obligations on the bond.

Stark was appointed a United States deputy marshal during the late strike, and July 6 while guarding the track and property of the Illinois Central railroad the cars were upset and burned, and Deputy Marshal Stark fired into the crowd and shot one Wm. E. Asslyn who died four days later.

4. That a colored man be appointed assistant chaplain to administer to the spiritual needs of colored convicts. 5. That houses of correction be established for prisoners of immature years. 6. That a negro be appointed on the board of prison inspectors. 7. That the authorities of the various counties be encouraged to appoint a fair proportion of negro jurors.

The signers of the petition compose the committee appointed by the state convention of negroes held here last spring to devise plans for the bettering of the condition of the race in the state.

**TEN NIGHTS OF IT.**  
A Big Temperance Revival to Begin in Topeka Next Month.

The ministers of the Ministerial Union are very much interested in the mass temperance meetings which are to be held in Topeka next month.

Dr. Tracey, of California, is to hold ten night meetings at the city jail; the pastors are to pay the hall rent \$12 a night and Dr. Tracey is to do the rest.

Rev. Mr. Green, a colored brother, suggested at today's meeting that the preachers might raise the \$125 for hall rent by a small door fee. He said: "Charge a small door fee, say ten cents and then turn the profit in and let Dr. Tracey get his collection."

The colored brother's idea did not meet with approval and the union decided that they would not charge a door fee but would raise the money on the outside among interested temperance workers.

Dr. Tracey's meeting will be held Thursday night, January 18.

**BURNS IS TOO HASTY.**  
He and His Colleague Holmes Fall Out Over Morals.

DENVER, Dec. 18.—Burns has been reported that Burns and Holmes, the great English labor leaders and delegates from the British trades congress, have had a falling out and that Holmes had refused to appear on the platform with Burns. Color was given to this story by the departure of Burns while his colleague remained in the city.

Holmes had expressed himself concerning the freedom with which Burns has been criticizing American institutions and American conditions on short acquaintance and has said that he thought his brother delegate had deceived himself of his opinions a little too soon.

Beyond this difference, it is learned there has been no serious rupture of the cordial relations heretofore existing between the two labor leaders.

He is Treated as Agreeably at Washington as Ever.

WASHINGTON, Dec. 18.—Willie Breckinridge has reinstated himself. He makes his old time theatrical plays for the house and wins it. He shakes his mane and purrs with his silvery voice and his admirers gather about him and applaud him just as if nothing had happened.

Mr. Breckinridge seems to be back in his old place in the hearts of the southern members. He is subjected to no ostracism, either upon the floor or in the cloak rooms. He is as smiling and happy and self-confident as ever before. The principal comment heard is praise for his "nerve."

**SYMPATHIZES WITH DEBS.**

Federation of Labor Extends an Offer of Assistance.

DENVER, Dec. 18.—The attendance was light when the morning session of the convention of the American Federation of Labor was called to order. The committee on resolutions reported favorably on a resolution from the cigar makers' union opposing compulsory arbitration, and it was concurred in without discussion.

Chairman Hysell of the special committee on the Debs decision, made its report, which was unanimously agreed to. It is as follows:

"Seeing that courts of equity have extended their jurisdiction far beyond all former limits and in a field heretofore entirely unknown to such courts, which action endangers the personal liberty and rights of our citizens individually and collectively and which, if not checked, may lead to serious results to the republic, it would therefore seem to us to be the part of duty on the part of those whose duty it is to look after the rights and liberties of the people, that is the law making power of the federal government, to proceed at once to enact a law which will set a limit in such proceedings beyond which equity courts may not go."

"While we recognize the rights of property, we also recognize that the right of personal liberty, consistent with good government is over and above all other rights and it should be the part of the government to protect the weak against the strong, and to see that no injustice is done to any citizen be he high or low and that equal protection be given to the humblest of the land. Therefore be it

Resolved, By the American Federation of Labor in convention, that we most respectfully and earnestly demand at the hands of our law-making body, the enactment of such laws as will carry out the principles above set forth, to the end that our people may not lose confidence in their judicial institutions and thereby cause the very foundation of the republic to be endangered."

"This convention having heard with regret of the conviction and possible incarceration in the county jail of Cook county, Ill., of Eugene V. Debs, president of the American Railway union and his co-laborers on the charge of being in contempt of court by violating the restraining order of the United States district court, which order was issued at the instance of the general railroad managers' association of Chicago; therefore, be it

Resolved, By this convention, that we extend to Eugene V. Debs and those associated with him our warmest sympathy and to all of the other similar cases throughout the land, our sincere sympathy and commiseration and promise them both our moral and financial support in the struggle to right both the wrongs already committed and those which may in the future be committed in the name of the law, and we recommend to this convention that the executive council of the American Federation of Labor be instructed to lead to these men such financial aid as in their judgment the federation is able to supply, and they are further instructed to select a legal counsel and advice looking to the appealing of these cases to the supreme court of the United States, where the question of right of the courts to issue what is known as blanket injunctions may be finally settled."

"One of the reasons for the purchase of non-union bicycles by the postal union was adopted."

**SENSATIONAL DIVORCE.**  
Mrs. Dr. Tobias Wants a Legal Separation For Divers Reasons.

Zora W. Tobias brought a suit for divorce today against her husband, Dr. J. M. Tobias, to whom she was married in June, 1889. She charges that her husband is an habitual drunkard, by reason of which he is incapacitated to pursue his chosen profession as a physician. She says that she was compelled a week ago to leave home and seek refuge among her friends because he attempted to kill her with an iron stove poker. She says further that the doctor fails to provide her with enough to eat, and she has been compelled to beg for food from the neighbors. Mrs. Tobias says also that she is not provided with suitable clothing, and what she has got her husband frequently looks up so that she can't get at it. She charges that her husband took her watch away and locked it in his desk and refuses to give it back.

"One of the reasons she asks for a divorce and the restoration of her maiden name, Zora West. She says her husband besides his regular income gets a pension of \$14 a month, and derives \$40 a month from the rent of Kansas avenue property; and owns in addition a whole block in Parkside and considerable real estate in the state of Florida."

She asks that she be given the Parkside homestead and that her husband be restrained from injuring, disturbing or annoying her.

CONSTANTINOPLE, Dec. 18.—It is now stated that President Cleveland will, after all, accede to the Porte's request to send a delegate with the commission appointed to inquire into the stories of atrocities upon the part of Turkish soldiery in Armenia. **LOUIS HECK HERE.**  
He is Musical Director of the "Railroad Ticket" and is at Home.

The "Railroad Ticket" company arrived in Topeka today and is stopping at the Chesterfield and Union Pacific hotels.

Louis Heck and his handsome wife are at the home of Mr. Heck's parents, 830 Quincy street.

Mr. Heck is formerly a Topeka young man who has made quite a success of music and his friends are glad of it. His

friends who have seen him today say he is growing stouter, and he is certainly looking happy enough.

A Journal reporter found Mr. and Mrs. Heck, jr., out in the back yard looking at the chickens. Mrs. Heck was formerly Miss Mabel Eckert a member of the Eckert trio and Mr. Heck met her when they were both playing engagements with the Marie Heath company in "A Turkish Bath." Mr. Heck was then a now musical director.

"I played nearly all of last winter at the Fifteenth street theater at Omaha but I believe I like traveling better," he said. "It's hard work and we have to have a rehearsal about every other day. Mr. Freeman insists on it to keep the show up to standard. I think we have a very good show this year. It keeps 'em howling for over two hours."

Mrs. Heck plays Isabel in the piece tonight, and it is possible Mr. Heck will play a solo. All his friends expect to be present.

**CALLS GORMAN DEVIL.**  
Ex-Congressman Williams Says the Democratic Party Must Be Cleaned.

BOSTON, Dec. 18.—About 150 members of the Young Men's Democratic club of Massachusetts sat down to the club's annual banquet at the Quincy house last night. Hon. Charles H. Stratton and George Fred Williams, Assistant Secretary Hamlin, Chairman John W. Corcoran of the state democracy, and Hon. John E. Russell, late Democratic candidate for governor, made addresses at the close of the banquet.

Referring to the action on the tariff bill, Mr. Williams said:

"Gorman of Maryland and Hill of New York, carried through one of the most dastardly pieces of treachery ever known in American politics. The legislation which finally became a law was a pitiable specimen of tariff reform. It was and always will be deformed, crippled and idiotic. The penalty has fallen alike upon the just and the unjust. The men who caused our defeat had been dragging us down long before they were in the United States senate."

"One of the men who has been repudiated by his own state and it is the fault of the Democrats that a political devil was not driven back long ago, to the hell where he belongs. Arthur F. Gorman stands now at the head of the Democratic party. He is the chairman of the national executive committee. The first business of the national convention of 1895 will be to fire him and his associates out of that convention. Our party must be cleaned and renovated."

**GALVESTON DOING WELL.**  
Her Growth as a Cotton Port is Again Exemplified.

GALVESTON, Dec. 18.—For the fourth time in her history Galveston's cotton receipts have reached a million bales.

The total of the receipts from August 31 to December 12 inclusive, as reported on the basis of the cotton exchange, was 1,009,966 bales, and the date when this high water mark was reached is much earlier than during any previous season. These figures indicate that the receipts have averaged about 10,000 daily; \$6,500 per day has been distributed at Galveston to those engaged in the handling of cotton during the past 100 days, or a total of \$650,000.
